MEXICO

- COVID 19 impact & market needs:
 - All the no essential industries are closed, we expect that will open by July
 - The needs are basically medical supplies
- How the pandemic will influence future business?
 - Too soon to say, but will change the way we used to make business
 - We could start searching for potential customers, partners or distributors and set long distant meetings by skype, zoom or hangouts meet, with this we can start making business or to be prepared in advance when the markers will be open and working.

COLOMBIA

- Population: 50 millions
- 39th. Economy in the world
- 2020 Economic Growth Forecast 3.4% (before the pandemic) -2% due the Pandemic
- Inflation rate: 3.3%
